

HE IS FROM FRISCO

Hesse, the American in the Panama Scandal.

HE ROBBED A RICH BREWER

The Smooth Doctor One of the Nerviest Adventurers Alive—An Adept in Hypnotism.

SAN FRANCISCO, Dec. 10.—Dr. Cornelius Hesse, whose name figures in the Panama canal scandal on two checks for 1,000,000 francs each, was well known in San Francisco ten years ago. He made a great reputation here as an expert in the application of electricity for nervous diseases, and his cures brought him a rich practice. One of his patients was a wealthy retired brewer named Lyon. One day Hesse mysteriously disappeared, and Lyon soon found the doctor had cashed at a bank eight notes for \$10,000 signed by Lyon and drawn in favor of Hesse. There was no question of the genuineness of the signature, and the only explanation Lyon could make was that Hesse had obtained his signature to the notes while he was under hypnotic influence. Lyon was a crank about paying cash, and never gave a note even in business transactions. He went to Paris and tried to recover the money from Hesse, but the adventurer laughed at him.

BIG DEMAND FOR WHISKY.

The Trade Is Said to Be Booming Since Election.

CHICAGO, Dec. 9.—Whisky has been booming lately and President J. B. Greenhut of the Distillers and Feeders' company, otherwise the whisky trust, explains it on the ground that the demand for the product has increased so enormously as to necessitate the full operation of all distilleries controlled by his companies. He denied the report that the trust has been running a corner. "We cannot be held responsible if members, as individuals, buy great quantities of whisky for special purposes or if people outside speculate in it. The trust is running all its distilleries to the extent of their capacities, and I believe that the price will advance still further."

Mr. Greenhut was on his way to New York to attend a meeting of the officers of the trust. He would not predict what would be done at the meeting, but he declared that it would not affect prices.

A freight and passenger service between White Lake and Muskegon is being talked of by Parsons & Robinson, a firm of Whitehall. It is proposed to establish a line of boats connecting with the Goodrich line of steamers at this point.

In addition to the candidates for postmaster at Moroni it now transpires that two well-known ladies have signified their intention of entering the race. This will give the contest a spice and variety not heretofore enjoyed.

It looks very much now as if the Moroni Fair association would default on the balance of their premiums, as they have no money in the treasury, and no one seems willing to advance the amount without security.

The village of East Jordan is now without fire protection. The power was furnished by the East Jordan Lumber company, which concern has gone to rest for the winter.

Michael Dykeman of Muskegon, fell into the lake from the top of a lumber pile. He was rescued with difficulty.

Muskegon's brass band is blowing its lungs out practicing for a concert to be given New Year's night.

Grand Haven is talking of starting a celery box factory.

Recovered—sound health for every consumptive who hasn't delayed too long. There's a positive cure with Dr. Pierce's Golden Medical Discovery. Just as it cures the worst of the many forms of scrofula, so it cures, and just as certainly, the scrofulous affection of the lungs that is called consumption—through the blood.

But, even with this remedy, it won't do to wait. It can't make new lungs, but it can make diseased ones healthy when nothing else will. As a blood-cleanser, strength-restorer, and flesh-builder, there's nothing like it known to medical science. For scrofula in all its forms, Bronchial Throat, and Lung affections, Weak Lungs, Asthma, Scurvy, Coughs, and every disease that can be reached through the blood, it's the only remedy so unfailing that it can be guaranteed.

If it doesn't benefit or cure, in every case, you have your money back.

On these terms, it's an insult to your intelligence to have something else offered as being "just as good."

THE SECRET OF SUCCESS

Great Fortunes Rising Like Monuments.

How Millionaires Succeed in Piling Up Enormous Wealth.

Not Difficult for Anyone to Follow Their Example.

It is popularly supposed that a few men like Gould, Vanderbilt and Astor represent the rich men of the country. This is a great mistake. There are thousands upon thousands of millionaires, men so rich that they cannot possibly spend the interest upon their vast accumulations. Every city, every town, every community has them; it is they who represent the wealth of our country, on account of their numbers. Now if so many men succeed, what is the true secret of that success?

Two words answer—energy and health. Any man of indomitable energy and perseverance, who is well, will succeed. Ah, there is the rub—who is well. Men have the energy and ability to succeed, but they do not possess the requisite health—that strength of the nerves, vigor of the mind and endurance and tirelessness which alone make men succeed.

They feel languid, even weak at times and lack snap and ambition; they know they have the necessary ability, but their energies need rousing. In some cases the stomach, liver and bowels are at fault, or possibly the kidneys are out of order. Nine times out of ten, however, it is lack of nerve strength, nerve vigor, and nerve power. Numberless men who have ample vigor at first break down in health from the excessive strain upon their nervous and physical systems, as did the well-known S. W. Nourse, Esq., of Hudson, Mass. He strikes the keynote of the difficulty, and his advice, if followed, will put men on the sure road to wealth.

MR. S. W. NOURSE, ESQ.

"From constant worry over business matters," he said, "I suffered from the loss of sleep, and became so nervous that I was entirely unfitted for my business. In fact, I feared insanity. I used Dr. Greene's Nervura blood and nerve remedy. The effect was almost magical. I could again sleep, mental composure, appetite and strength returned. Six bottles of this remedy cured me, and I have remained well to this date. I have recommended Dr. Greene's Nervura blood and nerve remedy to many of my friends and neighbors, and have yet to learn of a failure to obtain good results. Nothing more need be said. Get your health and you will stand every chance of succeeding in life. If you are not well, if you do not feel just right, if you lack the vim, energy and strength to take hold of your work, by all means use the wonderful remedy which restored Mr. Nourse to health and power to work."

You can procure it at any druggist's for \$1, and we would say also that it is a purely vegetable and harmless remedy, used and fully endorsed by physicians—in fact it is the discovery of the eminent physician, Dr. Greene, of No. 35 W. 14th street, New York, who has made himself famous throughout the United States by his marvellous cures of nervous and chronic diseases and by giving advice free to those who consult him or write to him.

For the holidays we are showing a choice line of novelties.

Why We Prosper!

Our trade has grown until our Clothing, Furnishing and Merchant Tailoring business is the envy of all competitors. Nor is it accidental success. The secret is not only judicious and truthful advertising, but all the accompaniments that go to make our grand song of trade. "We have sold BETTER GOODS and sold THEM CHEAPER." These are the fundamental reasons: NERVE and LIBERALITY to UNDER-SELL; a knowledge and study of what our PATRONS WANT and need, a large stock, the most polite help. NO FAKE SALES, NO FORCED SALES ALLOWED and the most satisfactory business methods ever submitted for the public's approval.

Should you need an Ulster or nobby Top Coat visit our Greatcoat Department (second floor). We are glad to show you through whether you buy or not.

Strahan & Greulich ALWAYS THE CHEAPEST.

IT IS ALL-PERVADING

A Distinct and Specific American Affliction.

Nearly Everyone Suffers From It.

It Strikes at Sight, Hearing, Smell and Speech; Courts Consumption and Paralysis and Causes Intense and Prolonged Suffering.

There is one disease prevalent in America which strikes so many people that it may be considered as all-pervading. Its victims are found among young and old. The healthiest and stoutest constitutions are not proof against its insidious attack and the most carefully guarded person is not exempt from it. This disease is repulsive and loathsome. Its external aspect is disgusting, while its operation causes as much suffering as an acute disorder. It affects, speech, sight and hearing; it strikes at head, nose, throat, eyes, ears, lungs, stomach and heart. It reserves for its victims consumption, paralysis and physical rottenness; it poisons the system, corrupts the breath, and makes its victim an object of pity to all who come in contact with them.

THAT DISEASE IS CATARRH.

It is estimated that seven-tenths of our people suffer from it in greater or lesser degree. So widespread is this complaint in America that it is called a national disease. There is not a city, nor a village, nor community of men in all this broad land that is free from it, and it has so far affected the entire population that the American is known the world over by the "Nasal twang" of his speech. It causes the constant hawking, spitting, coughing and other methods of clearing the nose, throat and lungs which are so common in public in this country that a foreigner is always surprised with it. It causes the partial deafness which one-half of the people suffer from, the hoarseness and harshness of voice that distinguishes us, the dyspepsia which is almost universal, and the general prevalence of consumption. The cause is due, no doubt, to the asperity of our climate, the quick changes in temperature, the violent alterations of tropic heat and polar cold, and the little care that is exercised in its suppression. Scientifically speaking, the bacillus or germ of catarrh is absorbed easily from the catarrhal subject by those associated with him. It is given off from the spouts and in other ways is transferred to the mucous membrane of healthy people.

WHAT CAN WE DO TO STOP IT?

The time has come when the disease should be suppressed. It threatens the health of the entire nation. To meet the situation there has grown up a distinct school of physicians who have studied and investigated the disease and who have devised means to conquer it. In Grand Rapids, where the cold winds cause its spread and bring it to everyone, we can congratulate ourselves that there are men who understand not only how to abate its violence, but how to remove it permanently from the system. Drs. Copeland and Graham are leaders among these, and their methods are so successful that they have a national celebrity. "Dr. Copeland and his associates have done and are now doing a wonderful work in the direction of reducing the suffering and limiting the spread of catarrh," says a scientific journal. "They have formulas which have never been equaled and their system is such that under its operation the poorest people can secure their services."

CATARRH CAN BE CURED.

New cases, old cases, chronic cases, cases of a slight or serious form yield at once to their treatment. The cost is only a month, and all medicines are furnished free. Those afflicted with catarrh will do well to have the disease treated now, rather than expose themselves to the injurious, if not fatal effects of a harsh winter.

A. J. SHELLMAN, SCIENTIFIC OPTICIAN.

65 Monroe street, Grand Rapids. Eyes tested for spectacles free of cost. With the latest improved methods. Glasses in every style at moderate prices. Artificial eyes to suit every case. For instruments of every description to benefit the deaf. See sign of dispensation.

DUST AND DISEASE.

Catarrh Caused by Mineral and Vegetable Dust.

The Case of Mr. L. C. Armantrout Given as an Instance.

How He Contracted and Was Cured of His Trouble.

Mr. L. C. Armantrout, a well known citizen of Grand Rapids and employed at Rice & Fuller's manufactory, where he is constantly exposed to the irritating action of the dust produced by the saw which he runs, says in regard to the cause of chronic diseases by Drs. Copeland and Graham: "Yes, nearly every man employed with wood-working machinery knows how harmful the dust is to a person suffering from catarrh, and many think it impossible for a man so employed to be cured of this loathsome disease and kindred complaints. But my case proves that they can be properly and thoroughly cured."

"I had spent so much money in my vain attempt to find some one who understood my condition that I had become discouraged and disgusted. Having heard of the wonderful success of Drs. Copeland and Graham I went to them, curious to know what they would say of my case. Doctors with whom I had been treating had considered my case a peculiar one and my not receiving any benefit proved they did not understand it. But Drs. Copeland and Graham seemed to thoroughly understand all my symptoms and diagnosed my case at once, so I resolved to try for health once more. My improvement from the first has been steady and constant in spite of the difficulties they had to overcome, and now I feel like a different man."

"When I began treatment with Drs. Copeland and Graham I had not known a moment of health for years. I had headache both in front and back, pains in my shoulders between the shoulder blades and in the small of the back, also in my limbs; had a constant dripping of slime from the back part of the nose into my throat, which compelled me to hawk and spit almost constantly in order to get rid of this offensive matter. The corruption had made its way into my stomach and set up the disease there until my appetite was gone and I was becoming weaker and hardly able to work. My stomach was sour and generated gas until I suffered intensely from heart burn. The pain was such that at times it seemed as though it would kill me. I was hoarse and badly constipated; my sleep was disturbed and I felt worse on rising than when I went to bed. My circulation was poor. My hands and feet were cold and I had palpitation and fluttering of the heart. I emphatically state that Drs. Copeland and Graham have done a wonderful thing for me. I am entirely cured of catarrh, have gained weight, feel fresh and feel like a new man, even my rheumatism of long standing is almost cured, and I shall never again congratulate myself on trying the Copeland Medical Institute, and can assure sufferers from chronic diseases that they can do no better than place themselves under treatment at this popular institution."

\$5 A MONTH.

All Patients for All Diseases will be treated until cured for \$5.00 per month. This includes Consultation, Examination, Treatment and Medicine for all patients and for all diseases.

Copeland Medical Institute, DR. W. H. COPELAND, DR. W. T. GRAHAM, 192 EAST FULTON ST. Corner of Sheldon.

SUNDAY

1894

DURING THE WEEK commencing to day James Martell must die by electrocution in the State prison at Dannemora, N.Y.

His crime was the murder of John Perello, and he was tried and found guilty at Ballston Spa, N.Y., in October last. Apparently hanging will not be restored electrocution as a punishment in New York State has come to stay.
